606 Field Trips

Background: This is a new policy that is in alignment with MSBA. We have the form that has been used in the past but have not had a policy in place.

Recommendation: Approve as presented

8.2 Approval of the three year agreement with BerganKDV for auditor services. Background: We received two proposals for audit services. The accounting profession is in a crisis right now with demand greater than supply. Audit firms are reluctant to provide quotes because firms are so short staffed. Firms are raising their fees because of the shortage of staff and they are trying to keep the staff they have by raising wages. This is an increase of \$3,000 from FY23 and an increase of \$14,500 over the previous 3-year agreement.

Recommendation: Approve as presented

8.3 Approval to not make-up the two days of school lost on March 25th and 26th and implement the Faculty Make-up days as presented.

Background: With the two lost days, we are 1.6 days over the required minimum amount of instructional minutes. The implementation of the Faculty Make-up Days will provide an independent opportunity for faculty to make-up the lost contract days. This will be reviewed and added to the staff handbook.

Recommendation: Approve as presented

Wright Technical Center, ISD 966 Brian Koslofsky, Executive Director Director's Report April 2, 2024

1. General Information

- a. I met with the superintendents on March 20 to review the pre registration numbers. All the programs are strong so there are no direct recommendations for cuts. However, member districts have been pulling back their OJT students and offering the OJT program in their own districts. With the increased interest in the Heavy Equipment program we are proposing to move Drew Bengston into the position full time and not replace the Work Based Learning vacancy this will create. This may have the greatest impact on Monticello. This has been discussed with Director Olson and the group. This would create a savings for WTC as we are working with MNVA to determine what compensation they will provide as they have done for this year. We will review the proposed savings and formal action at the May 7 meeting.
- b. I asked the group to share with me the importance of WTC and they all said that they support WTC and will continue to do so. We will always look to enhance our program offerings.
- c. The WTC Finance Subcommittee is scheduled to meet on Thursday, April 18 to review the current financial status
- d. The next scheduled meeting with the superintendents is April 24. We will be reviewing the final registration numbers.
- e. The legislative bills are gaining some momentum. The meetings that have happened in the past two weeks have been beneficial. We are ramping up a letter of support campaign along with asking supporters to contact key legislatures.
- f. The Executive Committee may want to schedule a meeting to discuss the 23-24 Director Evaluation. Are there any changes that are recommended? This Director Eval should be completed for review at the June 4 board meeting.
- a. Open House is scheduled for April 15 from 4-7:00PM.

2. Finance

- a. We are working on the final FY24 revised and the FY25 proposed budgets.
- b. We will be requesting approval from the board at the May 7 meeting to replace the bell and announcement system. The system was upgraded 6 years ago with infrastructure work with blue lights, zone changes and panic buttons. We will make the necessary revisions in the LTFM budget. The two quotes received are attached.

3. Facilities

a. Gilbert Mechanical was in to look at RTU #4 and has determined that the unit's ductwork can be redirected to prevent the unit from overheating. We hope to defer replacement for a year.
